

Paras Yadav

Data Science student skilled in Python, SQL, and PostgreSQL, with hands-on experience performing data analysis, data cleaning, and data visualization using Pandas. Builds end-to-end projects that turn raw datasets into clear, actionable insights, backed by strong problem-solving and analytical skills. Seeking a Data Analyst or Data Science Internship to apply and grow these skills in a real-world setting.

EXPERIENCE

PostgreSQL Student Management System

PostgreSQL, SQL, pgAdmin

Designed a normalized relational schema for a college management system and developed 30+ complex SQL queries.

Unicorn Startup Analysis

Python, Pandas, NumPy, Matplotlib, Seaborn

Cleaned global startup datasets and performed exploratory data analysis (EDA) on funding trends.

IPL Data Analysis

Python, Pandas, Matplotlib, Seaborn

Analyzed match and player performance datasets to highlight scoring trends and match outcomes.

EDUCATION

CGC Landran, B.Tech, Computer Science Engineering (Data Science)

Expected Graduation: July 2028

PROJECTS

Anime Dataset Analysis

Performed EDA to examine genre distribution and popularity trends.

Mohali, India

SKILLS

Programming & Database:
Python, SQL, PostgreSQL

Libraries: Pandas, NumPy,
Matplotlib, Seaborn

Tools: Git, GitHub, VS Code,
Jupyter, pgAdmin

Concepts: Data Cleaning, EDA,
Database Design, SQL Joins,
Window Functions, CTEs

AWARDS

Python Programming, Statistics
SQL & Database Management,
Data Analysis

LANGUAGES

English, Hindi
